Ubicado en Cancún, Q. Roo, México.

Precio para asociarse en un 50% por el barco / Price to associate 50% for the boat

Detalles

People on board: 12 pax.

Last shipyard maintenance: July 2022.

The new innovative Coupé 5X. The Pershing 5X is the result of the collaboration between the Product Strategy Committee, Ferretti Group's Engineering Department and architect Fulvio De Simoni. 54.2 long with a full beam of 14.4, it has an original hydraulically-operated platform at the stern that can be lowered more than 50 cm below the water surface, becoming a convenient submerged area for guests and the crew.

By fitting a safety rail supporting a net or technical canvas, the entire area becomes a saltwater swimming pool where younger guests can play safely in the water.

The garage can house a 10ft that slips easily into the water when the swimming platform is submerged.

The cockpit is protected laterally by the two aerodynamic fins, the hallmark of latest generation Pershings, and has a large sun pad plus dinette. It can be separate or linked up to the interior saloon with the new system to open and close the glass door and windows. This solution is ideal for making full use of the yacht in all weathers, also thanks to the possibility to fit air conditioning on board as well as a new interior heating system with low impact on the environment.

Accessories

Hull gelcoat Silver

Generator ONAN 17,5 kW diff. from 7 kW
Auto Trim for IPS Navigation unit with joystick driving mode unit
Hydraulic swimming floor
